

How to View Lab Results & Vitals in Portal

1. Login to Azalea PHR:

Signing into your Azalea PHR account can be done in 4 SIMPLE steps!

- a. Provide your doctor's office with your email address.
- b. You will receive an email notifying you of your patient portal enrollment.
- c. Using the link provided in the email, setup your custom password and portal account.
- d. Easily and securely access your information from anywhere with internet capabilities!

2. View Lab Results:

If your provider's office releases lab results to your portal, you can view these results on myHealthspot Patient Portal after the clinic receives your request.

- a. Tap on "Lab Results"
- b. You'll see all results that have been released
- c. To review individual results, tap on the Lab Name
- d. The individual lab results and the ranges will appear

3. View Vitals:

If you have been seen at the practice, you may have vitals available to view in the patient portal.

- a. Tap on "Vitals"
- b. All available vitals will be listed in this area
